

APPENDIX E

Diagnostic Reports and MAX Crosswalks

In addition to the MAX edit checks listed in Appendix D, a number of reports are produced and used by OMB to ensure that data reported in the data base are consistent both within and between schedules and comply with standard budget concepts.

Exhibits are included for the major diagnostic reports listed below to provide information that can be used to understand and resolve the errors in the data base highlighted by these reports. Agencies can print the reports marked with an asterisk (*) themselves.

Crosswalks are also included that describe relationships between entries in various schedules in the MAX data base. These crosswalks can also be used to understand and resolve errors identified by MAX edit checks and the diagnostic reports.

In addition, the Treasury Financial Manual (TFM) provides a crosswalk between data in the agency financial systems, the program and financing schedules, FMS 2108, and SF 133. This crosswalk is available on the internet (<http://www.fms.treas.gov/ussgl>).

Title	Description	Exhibit No.
Diagnostic Reports:		
BEA Questions and Problems Report*	Identifies possible errors in BEA classification in MAX schedules A and R (policy) and S and K (baseline).	1E
Total FTE Employment: Approved Estimates vs. MAX Schedule Q*	Compares FTE estimates approved by OMB with personnel levels in MAX schedule Q.	2E
FTE Employment: Average Salaries*	Identifies potential errors by comparing personnel obligations in MAX schedule O with FTE employment in MAX schedule Q and computing average salaries for both direct and reimbursable FTEs.	3E
Suspected Receipt Estimating Problems*	Identifies receipt accounts in MAX schedule R with apparent inconsistencies in the BY Budget data when compared with the previous two budgets.	4E
Status of Funds	Compares status of funds data in MAX schedule J with data derived from MAX schedules A, N, P, and R.	5E
Reconciliation of Program and Finance Schedule Transfers	Compares transfers of budget authority, unobligated balances, and obligated balances reported by gaining and losing accounts in MAX schedule P.	6E
Policy and Baseline Agency/Category Account Detail Report—Mandatory Estimates*	Compares mandatory baseline estimates in MAX schedule S with mandatory policy estimates in MAX schedule A.	7E
Crosswalks:		
Relationships between MAX Schedules N, P, and J	Identifies relationships between entries in the unavailable collections, program and financing, and status of funds schedules.	8E
Crosswalk between MAX A-11/TAR Comparison, MAX Schedule P, and Published TAR Data	Identifies relationships between the MAX A-11/TAR comparison (in the MAX A-11 drop-down menu), MAX schedule P, and data in the published Treasury Annual Report (TAR).	9E
Crosswalk between MAX Schedule P, SF 133, and Selected Treasury Reports	Identifies selected relationships between MAX schedule P, the budget execution report (SF 133), FMS 224 and FMS 2108, and the published TAR.	10E

BEA Questions and Problems Report

This report only displays exceptions to the rules. In most cases, the BEA classification will need to be corrected in MAX. Where the classification is valid, contact the OMB examiner.

This report displays policy and baseline data from MAX schedules A and R (policy) and S and K (baseline).

This report is designed to identify new account/line number combinations where the BEA classification does not conform to the following rules:

8/5/96
15.14.45

OFFICE OF MANAGEMENT AND BUDGET BEA QUESTIONS AND PROBLEMS REPORT

Agency: Department of Government
Bureau: Revolving and Management Funds

Indicates the apparent problem with the data (e.g., an account historically classified as mandatory has reported all resources as discretionary).

Classification 3: Accounts that Historically Use a Single BEA Category
Action Required: Validate Coding for BEA Cat not Previously Used for Account

—amounts categorized as under authorizing committee jurisdiction should be classified mandatory;

—current authority should be classified as discretionary or crime;

—credit program accounts should be classified as discretionary;

—credit liquidating accounts should be classified as mandatory, authorizing committee jurisdiction;

—advance appropriations should be classified as discretionary;

—obligation limitations should be classified as discretionary, except for limitations on credit financing accounts, which should be classified mandatory, under authorizing committee jurisdiction;

—offsetting collections and outlays from offsetting collections should be classified as discretionary for accounts classified as discretionary under the BEA;

—receipts should be classified as mandatory under authorizing committee jurisdiction; and

—GSEs should be classified as mandatory under authorizing committee jurisdiction.

"BEA Cat" and "BEA Sub" (columns 2 and 3) indicate the BEA classification of data on the specified lines of the data base.

"Com" (column 4) designates committee jurisdiction. The code refers to the applicable appropriations subcommittee (e.g., "DE" is for defense). For resources under authorizing committee jurisdiction, the code "AU" is used.

Total FTE Employment: Approved Estimates vs. MAX Schedule Q

This report is used to compare agency FTE estimates approved by OMB during the fall budget process with data reflected in MAX. Account level detail reported in MAX schedule Q follows summary data in this report.

FTE estimates approved by OMB during Fall budget review process.

TOTAL FTE EMPLOYMENT: APPROVED ESTIMATES VS. MAX SCHEDULE Q EXECUTIVE BRANCH AGENCY SUMMARY

Actuals and approved estimates and MAX totals should equal. Where differences occur, MAX schedule Q data should be adjusted to agree with approved estimates.

Actuals reported to OPM.

The sum of account-level detail (line xxx1) in schedule Q for a year for an agency.

FTE Employment: Average Salaries

This report computes average salaries by comparing obligations for personnel and FTE employment reported in MAX. Comparisons are made for both direct and reimbursable FTEs.

This is an exception report; it displays data only for accounts where the average salary does not fall in the normal range (i.e., average salary of less than \$12,800 or more than \$100,000).

Both a high and low estimate of average salaries are computed to take into account the potential effects of rounding.

FTE employment: average salaries

Department of Government	PY	CY	BY
General Administration			
Salaries and expenses			
Direct obligations, object classes 11.1+11.3 (\$M)	47	165	45
Direct FTE employment	1,160	1,207	1,207
Average salary, low estimate (dollars)	40,086	136,289	36,868
Average salary, high estimate (dollars)	40,947	137,117	37,695
Reimbursable obligations, object classes 11.1+11.3 (\$M)	3	3	3
Reimbursable FTE employment	33	24	23
Average salary, low estimate (dollars)	75,757	104,166	108,695
Average salary, high estimate (dollars)	106,030	145,791	152,130
022-04-11-9972- Miscellaneous trust fund			
Direct obligations, object classes 11.1+11.3 (\$M)	0	0	0
Direct FTE employment	3	3	3
Average salary, low estimate (dollars)	-166,666	-166,666	-166,666
Average salary, high estimate (dollars)	166,333	166,333	166,333

For BY, the average salary (low estimate) is computed by taking the obligations reported, determining the smallest number that rounds up to \$45 million (\$44,501,000), and dividing by the FTE.

For BY, the average salary (high estimate) is computed by taking the obligations reported, determining the largest number that rounds down to \$45 million (\$45,500,000), and dividing by the FTE.

PY and CY average salaries are computed in a similar manner.

Equals the sum of direct obligations for object classes 11.1 (full-time permanent) and 11.3 (other than full-time permanent) in MAX schedule Q.

Equals direct FTE employment (lines 1xxx and 6xxx) in MAX schedule Q.

These data show that no dollars are reported in schedule O for reimbursable personnel, even though reimbursable FTE are reported. Either reimbursable obligations should be reported or reimbursable FTE should not be reported.

In this case, the average salary appears to be too high. Either the obligations are overstated or FTE is understated.

The average low salary may be a negative number when there are a small number (e.g., less than 10) of FTEs, and personnel compensation does not round to \$1 million.

Suspected Receipt Estimating Problems

This report identifies receipt accounts in schedule R with apparent inconsistencies in the data when compared with data in the previous two budgets.

SUSPECTED RECEIPT ESTIMATING PROBLEMS

9/12/96
10.20.50

Department of the Treasury

(dollars in millions)

Indicates when receipt data in schedule R were last updated.

Accounts with \$4 million or less in each year of the BY Budget and credit subsidy accounts are excluded from the report.

There is at least a 25% difference between the PY actual and both the PY est in the CY Budget & the CY est in the BY Budget.					

Errors in the proposed budget must be fixed in MAX. Where there is a justifiable reason for the apparent inconsistency, contact the OMB examiner.

Identifies suspected errors.

Status of Funds

This report compares status of funds data in schedule J with data derived from other MAX schedules.

Data in schedule J (columns 1-3) should equal the corresponding entries in columns 4-6. To change data in columns 1-3, enter revisions in schedule J; to change data in columns 4-6, enter revisions in schedules A, N, P, or R, as appropriate.

	Total:	TRANSFER NOT IN BALANCE	0	-1	0
			0	-1	0

This report compares transfers of budget authority and obligated and unobligated balances reported by gaining and losing accounts in schedule P. It indicates where transfers to and from accounts do not equal. Errors must be fixed in MAX before the data base locks.

The same type of line should be used to report a transfer to or from an account (i.e., current BA transfers are reported on lines 4100/4200, as appropriate; permanent BA transfers on lines 6100/6200; unobligated balance transfers on lines 2221/2222; offsetting collections transfers on lines 6861/6862; and obligated balance transfers on lines 7331/7332). The line numbers indicate whether a transfer to an account (e.g., line 4100) or from an account (e.g., line 4200) is being reported.

Indicates the account to which the transfer is made.

Indicates the transfer lines in schedule P and amount transferred.

Indicates the account from which the amount is transferred

For each transfer reported in an account, agencies must enter the 6-digit basic account symbol assigned by Treasury for the other account(s) involved in the transfer. This account ID is reported in the stub entry of the transfer line in schedule P.

In this case, the ID of the gaining account was not reported on line 4100 by the account from which the amount is transferred (001-10-00-0400). However, the gaining account (001-12-09-1200) identified the source of the transfer. To correct the error, include the account ID in the stub entry for line 4100.

¹ Discretionary estimates are reported in another section of this report.

This section of the report presents data on mandatory estimates in MAX. As a general rule, there should be differences between baseline and policy estimates for mandatory programs only if proposed policy changes have been approved by OMB. Errors must be fixed in schedules A and S before the data base locks.

Current law baseline estimates for mandatory programs are reported under transmittal code 0. Baseline and policy estimates for mandatory programs in transmittal code 0 should equal, except where third scorecard changes are proposed.

Policy changes for mandatory programs are reported as non-PAYGO (transmittal code 2) when the proposal affects off-budget transactions (e.g., social security, postal service) or are otherwise not subject to PAYGO rules (intergovernmental transactions).

Indicates the transmittal code of the MAX schedules for which data are reported. For mandatory programs, policy changes are usually reported as PAYGO (transmittal code 4), or non-PAYGO (transmittal code 2). No data should be reported for PY in transmittal codes 2 or 4.

No baseline data should be reported for legislative proposals (transmittal codes 2 or 4).

Proposed changes that are not scored as PAYGO or non-PAYGO (i.e., level of effort and other indirect effects of appropriations language) are classified as third scorecard, appropriations committee or third scorecard, authorizing committee and are reported in transmittal code 0 in schedule A.

Relationships Between MAX Schedules N, P, and J

Entry			Description
Schedule N Unavailable Collection	Schedule P Program and Financing	Schedule J Status of Funds	
0199 Balance, start of year	2140 Unobligated balance available, start of year 7240 Obligated balance, start of year	0199 Total balance, start of year	<p>The PY start of year balance in schedule N is automatically generated based on the previous year's budget. The CY and BY balances are automatically calculated.</p> <p>The balance reported in schedule J should equal the sum of the balances reported in schedule N plus the unobligated and obligated balances reported in schedule P.</p> <p><i>Note: Schedule J presents data on a cash basis and should not include balances of borrowing authority, contract authority, or receivables and unpaid, unfilled orders from Federal sources.</i></p>
0299 Total receipts		0200-0279 Cash income during the year: receipts	The receipts entries in schedule N are automatically generated from data reported in MAX schedule R. The cash income from receipts, not offsetting collections, reported in schedule J should equal the receipts in schedule N.
	8800-8845 Offsetting collections (cash)	0280-0289 Offsetting collections	The offsetting collections (cash) reported in schedule P should equal offsetting collections reported in schedule J.
03xx Offsetting collections	6845 Portion not available for obligation		The offsetting collections entry in schedule N is automatically copied from line 6845 in schedule P.
	7320 Total outlays (gross)	0599 Total cash outgo	Total cash outgo reported in schedule J should equal the gross outlays reported in schedule P for all affected expenditure accounts.
05xx Appropriations	4020, 4025 Current appropriation (special fund) 4026, 4027 Current appropriation (trust fund) 4900, 4905 Current contract authority 6020, 6025 Permanent appropriation (special fund) 6026, 6027 Permanent appropriation (trust fund) 6028 Permanent appropriation (unavailable balances) 6045 Portion precluded from obligation 6610, 6615 Permanent contract authority 6826 Offsetting collections (unavailable balances)		Appropriations entries in schedule N are automatically copied from data reported in schedule P for all affected expenditure accounts. (Normally, the amounts represent special and non-revolving trust fund budget authority.)

Crosswalk Between MAX A-11/TAR Comparison, MAX Schedule P and Published TAR Data

Entry			Description
MAX A-11 TAR Comparison	MAX Schedule P	Published TAR Data	
Unobligated balance, start of year	21.40-21.49 Unobligated balance available, start of year	Column 1: Balances, beginning of fiscal year: Unobligated balances (unexpired)	The start of year unobligated balance reported in schedule P should equal the start of year unexpired unobligated TAR balance for affected accounts, except for accounts with unavailable start of year collections reported in schedule N.
Obligated balance, start of year	72.40-72.49 Obligated balance, start of year	Column 1: Balances, beginning of fiscal year: The sum of the absolute value of start of year accounts payable, undelivered orders, minus accounts receivable and unfilled customers orders	The start of year obligated balance in schedule P should equal the sum of the start of year obligated balance detail identified in the TAR for affected accounts.
Invested balance, start of year, par value	92.01 Total investments, start of year: U.S. securities, Par value	Column 1: Balances, beginning of fiscal year: Investments in public debt securities Investments in agency securities	The start of year total investments (par value) entry in schedule P should equal the TAR start of year invested balance detail. <i>Note: The start of year invested balance in schedule P is a memorandum (non-add) entry that should reflect total invested balances (par value), including those not available for obligation and reflected in schedule N.</i> <i>For accounts with schedule J, start of year invested balances in that schedule should equal start of year invested balances in TAR.</i>
Net outlays	90.00 Outlays (net)	Column 4: Outlays (net)	Net outlays in schedule P should equal net outlays in the TAR for affected accounts. PY outlay data are automatically loaded into MAX schedule P.
Unobligated balance expiring	23.98 Unobligated balance expiring		The unobligated balance expiring is the amount available for obligation that ceases to be available for obligation at the end of the fiscal year (other than amounts rescinded by law). It is part of the end of year unobligated balance (expired) reported in the TAR, but is not separately identified in the published TAR.
Unobligated balance, end of year	24.40-24.49 Unobligated balance available, end of year	Column 6: Balances, end of fiscal year: Unobligated balances (unexpired)	The end of year unobligated balance reported in schedule P should equal the end of year unexpired unobligated TAR balance for affected accounts, except for accounts with unavailable end of year collections reported in schedule N.
Obligated balance, end of year	74.40-74.49 Obligated balance, end of year	Column 6: Balances, end of fiscal year: The sum of the absolute value of end of year accounts payable, and undelivered orders minus accounts receivable and unfilled customers orders	The end of year obligated balance in schedule P should equal the sum of the end of year obligated balance detail identified in the TAR for affected accounts.
Invested balance, end of year, par value	92.02 Total investments, end of year: U.S. securities, Par value	Column 6: Balances, end of fiscal year: Investments in public debt securities Investments in agency securities	The end of year total investments (par value) entry in schedule P should equal the TAR end of year invested balance detail. <i>Note: The end of year invested balance in schedule P is a memorandum (non-add) entry that should reflect total invested balances (par value), including those not available for obligation and reflected in schedule N.</i> <i>For accounts with schedule J, end of year invested balances in that schedule should equal end of year invested balances in TAR.</i>

Crosswalk Between MAX A-11/TAR Comparison, MAX Schedule P and Published TAR Data—Continued

Entry			Description
MAX A-11 TAR Comparison	MAX Schedule P	Published TAR Data	
	72.95 From Federal sources: Receivables and unpaid, unfilled orders, start of year	Column 1: Balances, beginning of fiscal year: Accounts receivable Unfilled customers orders	Start of year receivables and unpaid, unfilled orders from Federal sources in schedule P should equal the sum of amounts identified as start of year accounts receivable and unfilled customers orders in the TAR for affected accounts.
	72.99 Total unpaid obligations, start of year	Column 1: Balances, beginning of fiscal year: Accounts payable Undelivered orders	Start of year total unpaid obligations in schedule P should equal the sum of amounts identified as start of year accounts payable and undelivered orders in the TAR for affected accounts.
	74.95 From Federal sources: Receivables and unpaid, unfilled orders, end of year	Column 6: Balances, end of fiscal year: Accounts receivable Unfilled customers orders	End of year receivables and unpaid, unfilled orders from Federal sources in schedule P should equal the sum of amounts identified as end of year accounts receivable and unfilled customers orders in the TAR for affected accounts.
	74.99 Total unpaid obligations, end of year	Column 6: Balances, end of fiscal year: Accounts payable Undelivered orders	End of year total unpaid obligations in schedule P should equal the sum of amounts identified as end of year accounts payable and undelivered orders in the TAR for affected accounts.

Crosswalk Between MAX Schedule P, S.F. 133, and Selected Treasury Reports

MAX Schedule P	Report on Budget Execution, S.F. 133	Treasury Reports	Description
6800 Offsetting collections (cash)	Line 15B. Collections (-)	<i>Total cash collections received for deposit</i> (receipts and revolving fund repayments) reported on FMS 224.	The offsetting collections (cash) reported in schedule P are the cash collections received and <i>credited to the (expenditure)</i> account. This line does not include orders from Federal sources not accompanied by cash. The PY amount reported in schedule P should correspond to the amounts reported on the year-end S.F. 133 but with the opposite sign.
7240–7249 Obligated balance, start of year	Line 12. Obligated balance, net as of October 1	<i>Unpaid obligations</i> (undelivered orders and contracts and accounts payable and other liabilities) reported in columns (9) and (10) of FMS 2108 <i>minus receivables</i> (reimbursements earned and refunds and unfilled customer orders) reported in columns (7) and (8) of FMS 2108.	The obligated balance, start of year reported in schedule P is the net unpaid obligations brought forward from the preceding year. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 for the year and on the FMS 2108 at the end of the previous year.
7295 From Federal sources: Receivables and unpaid, unfilled orders, start of year	Line 14A. Accounts receivable (-) <i>plus</i> line 14B.1. Unfilled customer orders: Federal sources without advance (-)	<i>Receivables</i> (reimbursements earned and refunds and unfilled customer orders) reported in columns (7) and (8) of FMS 2108.	Receivables and unpaid, unfilled orders from Federal sources reported in schedule P include filled and unfilled orders for which payments have not been received that have been reported as budgetary resources of the expenditure account. When payment is received, it will be reported as offsetting collections (cash) on line 6800. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 of the previous year but with the opposite sign. The PY amount in schedule P also corresponds to amounts on the FMS 2108 at the end of the previous year.
7299 Total unpaid obligations, start of year	Line 14C. Undelivered orders <i>plus</i> Line 14D. Accounts Payable	Unpaid obligations (undelivered orders and contracts and accounts payable and other liabilities) reported in columns (9) and (10) of FMS 2108.	Total unpaid obligations reported in schedule P are the sum of the obligated balance plus the receivables and unpaid, unfilled orders from Federal sources. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 of the previous year and on the FMS 2108 at the end of the previous year.
7320 Outlays (gross)	Line 15A. Disbursements	<i>Total disbursements</i> (payment transactions) reported on FMS 224.	The outlays (gross) reported in schedule P are the total amount of obligations paid. The PY amount should correspond to the amount on the year-end S.F. 133.
7440–7449 Obligated balance, end of year	Line 14A. Accounts receivable (-) <i>plus</i> Line 14B.1. Unfilled customer orders: Federal sources without advance (-) <i>plus</i> Line 14C. Undelivered orders <i>plus</i> Line 14D. Accounts payable	<i>Unpaid obligations</i> (undelivered orders and contracts and accounts payable and other liabilities) reported in columns (9) and (10) of FMS 2108 <i>minus receivables</i> (reimbursements earned and refunds and unfilled customer orders) reported in columns (7) and (8) of FMS 2108.	The obligated balance, end of year reported in schedule P is the net unpaid obligations carried forward to the succeeding year. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 and the FMS 2108 for the year.

Crosswalk Between MAX Schedule P, S.F. 133, and Selected Treasury Reports—Continued

MAX Schedule P	Report on Budget Execution, S.F. 133	Treasury Reports	Description
7495 From Federal sources: Receivables and unpaid, unfilled orders, end of year	Line 14A. Accounts receivable (–) <i>plus</i> Line 14B.1. Unfilled customer orders: Federal sources without advance (–)	<i>Receivables</i> (reimbursements earned and refunds and unfilled customer orders) reported in columns (7) and (8) of FMS 2108.	Receivables and unpaid, unfilled orders from Federal sources reported in schedule P include filled and unfilled orders for which payments have not been received that have been reported as budgetary resources of the expenditure account. When payment is received, it will be reported as offsetting collections (cash) on line 6800. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 but with the opposite sign. The PY amount in schedule P also corresponds to amounts on the FMS 2108 at the end of the year.
7499 Total unpaid obligations, end of year	Line 14C. Undelivered orders <i>plus</i> Line 14D. Accounts payable	<i>Unpaid obligations</i> (undelivered orders and contracts and accounts payable and other liabilities) reported in columns (9) and (10) of FMS 2108.	Total unpaid obligations reported in schedule P are the sum of the obligated balance plus the receivables and unpaid, unfilled orders from Federal sources. The PY amount reported in schedule P should correspond to the amounts on the year-end S.F. 133 and on the FMS 2108 at the end of the year.
8800–8845 Offsetting collections (cash)	Line 15B. Collections (–)	<i>Total cash collections received for deposit</i> (receipts and revolving fund repayments) reported on FMS 224.	The offsetting collections (cash) reported in schedule P are the cash collections received and <i>credited to the (expenditure) account</i> , distributed by source. This line does not include orders from Federal sources not accompanied by cash. <i>Note: the sum of the entries on these lines will equal the amount reported on line 6800 in schedule P.</i> The PY amount reported in schedule P should correspond to the amounts reported on the year-end S.F. 133 for the year but with the opposite sign.
9000 Outlays (net)	Line 15A. Disbursements <i>plus</i> Line 15B. Collections (–)	Outlays (net) reported for the account in the Treasury Annual Report, Appendix. ¹	The PY amounts reported in schedule P should correspond to the sum of the amounts reported on the year-end S.F. 133.

¹ For more information on relationships between MAX schedule P and the TAR, see exhibit 9E.
